

Description: An area that has most of its original housing stock in place but housing conditions may be worsening due to low rates of homeownership and/or decline of property maintenance. There may be a lack of neighborhood identity and gradual invasion of different type and intensity of uses that may be incompatible with the neighborhood residential use. These areas may be transitioning into a mix of single-family residential, multi-family, light office professional and light commercial uses. These areas are typically located in the older, core areas of the community.

Development Strategy: Focus should be on strategic public investments to improve conditions, allow appropriate infill development on scattered vacant sites, and encourage more homeownership and maintenance or upgrade of existing properties. Public assistance and investment should be focused where needed to ensure that the neighborhood becomes a more stable, mixed-income community with a larger percentage of owner-occupied housing. Vacant properties offer an opportunity for infill development of new, architecturally compatible housing. Strong pedestrian and bicycle connections should be provided to enable residents to walk/bike to work, shopping, or other destinations in the area..

Goals and Policies:

GOAL 7: LAND USE – To ensure the community’s anticipated growth occurs in a well-integrated yet organized fashion, which protects our community resources, promotes efficient use of infrastructure and transportation facilities, and supports quality economic development

POLICY 7.4 – Positive impacts on the built and natural environment shall be anticipated through only the highest standard of development throughout all parts of the community

POLICY 7.5 – Available land shall be utilized in the most efficient manner while focusing on redevelopment of land where feasible.

Standards for the Exercise of Zoning Power (Review Criteria)

In reviewing and making a decision on a rezoning request, the City staff, Planning Commission and City Council shall consider the following standards. The proposed responses to these standards by the applicant and staff are listed below.

(1) Whether a proposed rezoning is consistent with surrounding land use pattern and will permit a range of uses that are suitable with regard to the use and development of adjacent and nearby properties..	
Applicant:	Yes..
Staff:	Yes. The proposed zoning change is consistent with the adjacent O-P and R-P zonings, which dominate the boundaries of the subject property...
(2) Whether a proposed rezoning will adversely affect the existing use or usability of adjacent or nearby property.	
Applicant:	It should have no effect.
Staff:	No significant adverse impacts.
(3) Whether the property to be affected by a proposed rezoning has a reasonable economic use as currently zoned.	
Applicant:	No, the DR-10 zoning on two of the three lots is no longer a standard zoning classification.
Staff:	No. The DR-10 zoning is a holdover from previous Zoning regulations and is no longer consistent with the standard development regulations of the City. All efforts should be made to transition this to another currently-recognized zoning classification.
(4) Whether the proposed rezoning will result in a use that will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities or schools.	
Applicant:	The there currently is no proposed development. A development plan will have to be submitted for approval by a future purchaser..
Staff:	No adverse impact.
(5) Whether the proposed rezoning is in conformity with the policy and intent of the Comprehensive Plan.	
Applicant:	Yes.
Staff:	Yes. R-P zoning is consistent with the TN Character Area designation of the Comprehensive Plan, and well as its applicable Goals and Policies.
